

SERIOUS CRIME INVESTIGATIONS

Wynyard's Serious Crime Investigations solution is a highly configurable, secure tool allowing front line investigators to manage investigations and act on critical information faster.

Wynyard's Serious Crime Investigations solution is integrated with the Wynyard Advanced Crime Analytics Platform. More than 50 agencies and organisations globally responsible for anti-doping, anti-human-trafficking, covert and serious organised crime investigations, witness protection, child exploitation and high tech crime, trust Wynyard for their case management solution.

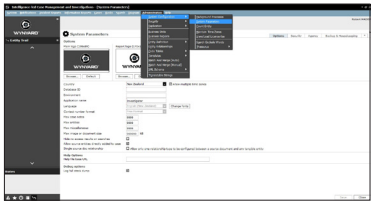

SERIOUS CRIME INVESTIGATIONS IS USED BY:

-  LAW ENFORCEMENT
-  GOVERNMENT AGENCIES
-  FINANCIAL SERVICES ORGANISATIONS

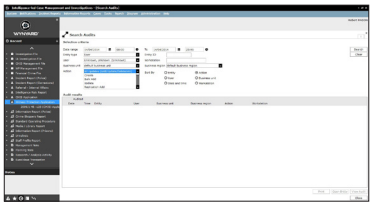

SERIOUS CRIME INVESTIGATIONS PROVIDES:

- A comprehensive solution for agencies to manage cases, tasks and evidence.
- All the tools the investigation team needs to collaborate, track activity, schedule work, allocate resources and produce reports.
- Built in workflow for assigning tasks, adding case notes and attaching evidence.
- The ability to easily configure the software to meet the needs and processes of multiple business units with a single deployment.

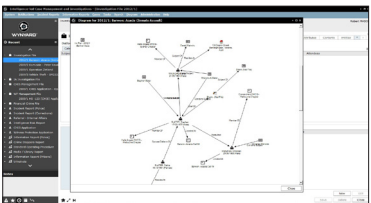

SOLUTION HIGHLIGHTS:

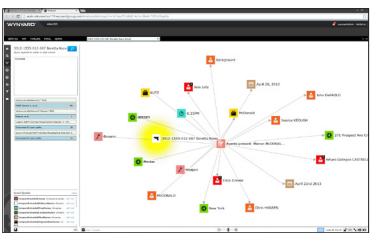

Complete configurability
Meet your specific requirements without incurring extra costs by managing and configuring the solution in house.

Built with security in mind
Set permissions to limit access to data and record activity with comprehensive logging and audit functionality.

Intuitive visualisations
See a complete picture of the case by visualising all the key entities, relationships and events involved.

Advanced crime analytics
Perform in-depth analysis by combining case data, wider intelligence and open source information using the advanced analytics tools.

Serious Crime Investigations provides a complete solution for managing events, incidents and cases
